Statkraft

Necton Greener Grid Park Community Fund

Fund Overview

The Fund will support community and environmental **projects that support a practical shift to a low-carbon future.**

Projects must be located within the **Parishes of Necton and Fransham**.

The fund has £20,000 available each year.

- **Grants from £500 to £20,000**
- **Closing date: 16 December 2026**
- **Decisions by: End February 2027**

Who can apply?

- Voluntary & community groups
- Local charities
- Community Councils
- Non-profit social enterprises
- Schools (beyond core curriculum)
- Net zero education consultants

It's quick and easy to apply. Visit GrantScape's website for details and to get started.

What can be funded?

Examples of projects that could be considered for grants include:

- **Energy Audits** for community buildings
- **Renewable Upgrades:** insulation, solar panels, battery storage, ground source heat, micro wind turbines
- **Educational Initiatives:** STEM workshops, school trips, and events promoting green careers
- **Community Training** to help local groups lower their carbon footprint
- **Environmental Conservation:** tree planting, habitat protection, and enhancing public spaces
- **EV Charging Points** in public areas
